

## Silicon materials

### Expertise

- Impurity studies
- Segregation
- Specification of Solar grade Silicon
- Compensation
- Advanced characterization of ingots & wafers
- Dedicated solar cell processes for new feedstocks

### Applications

- SoG silicon specification
- Optimisation of feedstock production
- Optimisation of crystallization & yield
- Material benchmarking (e.g. feedstock, crucible, ingots, etc.)
- Improved solar cell processing

### Customers

Manufacturers of:

- Feedstock
- Ingots (mono/multi)
- Wafers
- Solar cells
- Equipment

**Our Expertise - Your Opportunity**
